A special edition of *Sagħtar – Il-Malti għall-Barranin*

Fondazzjoni Sagħtar has just launched a special edition of *Sagħtar*, titled "*Il-Malti għall-Barranin*".

This edition consists of a number of resources and tools for educators to help them assist young students or those who are just starting to learn Maltese, especially foreigners trying to integrate in our society, in their early cognition and appreciation of the Maltese language. Thus, this book is a precious tool for educators so that students, especially in primary schools, familiarise themselves with Maltese, understand and use the language in a Maltese context and culture. The printed publication shall be distributed to schools while a digital version shall also be available on saghtar.org.mt.

Tha activities and resources within this special *Sagħtar* edition can be used in class, at school or at home, under the guidance of educators, parents or a responsible adult. The activities are simple, the type which students enjoy themselves working out while serving as a learning experience, such as colouring in or drawing, crafts, games, simple writing, reading and more, and refer to various situations from everyday life. These include family, school, food, colours, some culture, animals, means of transport, numbers, professions, the weather and more.

The resources which form this book were created and written by Ms Raisa Abela, with the support of Mr Kenneth Busuttil from the International Learners' Directorate within the Ministry for Education, Sport, Youth, Research and Innovation. The illustrations were drawn by Ms Carina Giordano while the design was carried out by Ms Celine Debono.

This project has been funded by the Small Initiatives Support Scheme (SIS) managed by the Malta Council for the Voluntary Sector (MCVS) supported by the Ministry for Inclusion and the Voluntary Sector (MIV).
